WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently, other afflictions came upon me. There was a burning, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative Health Cure, and its effect was simply wonderful. I heartily commend your remedies."

Dr. Miles' Remedies are sold by all drugists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

DR. MILES MEDICAL CO., Elkhart, Ind.

For Congressman Fourth District,
MAJOR CHAS. W. LEE,
Of Switzerland County.

Comrade Lee will be elected tomorrow by a thousand majority if he gets the full vote of his party.

No republican voter of the Fourth district can do his duty tomorrow by staying away from the polls.

Last month's business failures were the smallest in five years. That is a good indication that better times are coming.

No class of people are more interested in the special election than the old soldiers. In this district they have never been represented in congress by one of their comrades. They know that their interests would be carefully guarded by Major Lee. The soldier vote will be no small factor in this election.

The decision of Judge Martin, of Bedford, that running stock of building and loan associations is taxable is calling forth a vast amount of criticism. If this decision is held good by the supreme court it will do away with much of the building and loan business in Indiana.

The popular impostor who spoke on the street corner Saturday night, claimed to be a "mechanic out of a job." He certainly did not talk in a manner to recommend him to any of the men of Seymour who employ mechanics. The fair-minded supporters of Mr. Griffith were ashamed to stand and listen to the disconnected harangue of this stranger. They know that such support does their candidate no good. All were convinced that he was no ordinary impostor when he proposed taking up a collection to close his performance.

The prospects of electing Major Lee to congress in this district which is normally democratic by about 2000 are brighter today than at any time since the campaign opened. The democrats of the Bryan brand are making desperate efforts to arouse the rank and file of their party. They are fearful of losing the district of which they formerly had no fears. They have collected a corruption fund by calling on sympathizing brethren over the state who hold political jobs. They have even assessed the judges and clerks of the election boards on their side. By such methods they are getting a fund together to use in behalf of Griffith.

But in spite of all they can do they fear defeat in this district where they have previously counted on a big majority.

REDUCTION OF FARM MORTGAGES

Facts About the Counties in the Fourth Congressional District.

Silver and Farm Products—Figures Showing that the Price of One Has Absolutely Nothing to Do with the Other.

Republican Promises Have Been Redeemed and Prosperity Has Already Set in Under the McKinley Administration.

Market Quotations Tell the Tale.

The stock argument of the advocates of free silver coinage at a ratio of 16 to 1, in the last campaign, was that a decrease in the value of silver always caused a corresponding decrease in the price of farm products, and particularly wheat. The following comparisons in the price of wheat and other farm products, and the value of silver in 1896 and 1897, disprove these claims absolutely.

The prices on farm products herein given are taken from the Indianapolis market quotations, and the prices of silver from the general market quotations:

INDIANAPOLIS MARKET QUOTATIONS.

July 26, 1896. Wheat, No. 2 Red..... per bushel, \$0.55 1-2
July 26, 1897. Wheat, No. 2 Red..... " .73
Advance..... " .17 1-2
Percentage increase in price..... 31 1-2

July 26, 1896. Wool..... per pound, \$0.12
July 26, 1897. Wool..... " .16
July 26, 1896. Cattle..... \$4.00 @ 4.25
July 26, 1897. Cattle..... 4.60 @ 4.85
July 26, 1896. Hogs..... 3.30 @ 3.50
July 26, 1897. Hogs..... 3.65 @ 3.80

SILVER BULLION.

July 26, 1896. Silver bullion..... per ounce, \$0.69 3-8
Value of silver in standard dollar, July 26, 1896..... .53 7-10
July 26, 1897. Silver bullion..... per ounce, .59
Value of silver in standard dollar, July 26, 1897..... .45 6-10
Decline in price of silver..... .15 pet.

Sheep advanced in price in 1897, per head..... 100 "

Wool advanced in price, per pound, in 1897..... .33 "

Silver declined in price, per ounce, in 1897..... .15 "

These figures show plainly that the price of farm products has advanced during the last year, while the value of silver has continued to decrease, and proves conclusively that the price of silver has absolutely no effect on the price of wheat and other farm products.

REDUCTION OF FARM MORTGAGES IN THE FOURTH DISTRICT.

Another claim of the advocates of the free and unlimited coinage of silver, and the calomel-shriekers in the campaign of 1896, was that on account of the low price of farm products, which they claimed to be due to the depreciation in the value of silver, a majority of farmers were becoming burdened with debt, and that the number and amount of farm mortgages were being increased each year.

The following figures, taken from the records in the offices of the recorders of the counties comprising the Fourth congressional district, show that the people are paying mortgages a great deal more rapidly than they are giving mortgages.

COUNTY	FARM MORTGAGES GIVEN		FARM MORTGAGES PAID	
	1897	1896	1897	1896
Bartholomew.....	\$188,314	\$181,755	\$774,704	\$191,358
Brown.....	13,643	21,926	9,560	12,796
Dearborn.....	79,020	155,743	104,700	79,795
Decatur.....	159,633	175,911	146,500	32,200
Jackson.....	98,471	129,968	123,260	132,752
Jefferson.....	112,065	116,800	133,283	50,500
Jennings.....	100,300	109,855	80,776	24,715
Ohio.....	115,039	24,217	12,533	29,883
Ripley.....	143,256	117,441	100,651	117,532
Switzerland.....	70,494	53,666	48,298	33,597
Total.....	\$980,235	\$1,089,282	\$1,533,271	\$705,133

The mortgages on farms given in the 10 counties for the year ending June 1, 1897, were \$980,235, and for the same period the farm mortgages paid off were in amount \$1,533,271.

For every dollar of mortgages placed on farms in the Fourth congressional district for the year ending June 1, 1897, there was \$1.56 1/2 paid. Reduction of farm mortgages over half a million dollars.

The above figures show that the claim of the free silverites concerning the increase of indebtedness on the farms, is as unfounded in fact as the claim that the decrease in the value of silver shows a corresponding decrease in the price of wheat.

EXCESS OF RECEIPTS OVER EXPENDITURES.

During the 44 months of the Cleveland administration, from July 1, 1893, to March 1, 1897, only seven months showed a surplus of receipts over expenditures. The aggregate amount was \$21,720,014.

Under the McKinley administration, from March 4 to July 1, 1897, the excess of receipts over expenditures amounted to \$29,082,847. These figures show that the excess of receipts over expenditures during four months of a Republican administration amounted to \$7,362,833, more than was shown during 44 months of a Democratic administration.

The excess of receipts over expenditures, as shown by the treasury report during each of the first four months of the McKinley administration, was as follows:

March.....	\$ 9,064,604
April.....	5,740,038
May.....	688,131
June.....	13,630,014
Total.....	\$29,082,847

PER CAPITA CIRCULATION.

The per capita circulation in the United States June 30, 1896, was \$21.35.

The per capita circulation in the United States June 30, 1897, was \$22.80, an increase of \$1.45 per capita.

THE COINAGE OF SILVER DOLLARS.

Another argument of the free silver shouters in the campaign of 1896 was that the Republican policy, or gold standard, as they termed it, meant the disappearance of the silver dollar. From July 1, 1896, to July 1, 1897, there were coined 21,203,791 standard silver dollars, as follows:

1896	1897
July.....	\$1,062,000
August.....	2,650,000
September.....	2,700,100
October.....	2,350,000
November.....	1,914,000
December.....	1,700,250

LOW VALUE OF SILVER.

On July 28, 1897, silver reached the lowest point in value in its history.

On that date silver per ounce was quoted at 57 3/4 cents.

Value of silver in standard dollar 46-6 cents.

REPUBLICAN PROMISES REDEEMED.

The logic of the above figures and the fact that there is a decided improvement in every branch of business, proved conclusively that the Republican policy is right, and that the pledges of the Republican party made during the last campaign are being rapidly redeemed. Republican prosperity has already set in under the McKinley administration, and there is every evidence that we are entering upon an era of better business and general prosperity in this country.

Every voter in the Fourth district will study carefully the above figures and will consult his personal interests, there can be but one conclusion reached, it is mind when he enters the election booth on Aug. 10, and that conclusion will be to vote for the man who represents the principles and policies of the Republican party, Major Chas. W. Lee.

Vault cleaning. All work guaranteed. Call on George R. Harris, No. 11 Brown street. \$1.00 a load. Chamberlain's Colic, Cholera and Diarrhoea Remedy always affords prompt relief. For sale by C. W. Milbous, druggist.

Lydia E. Pinkham's Vegetable Compound will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure Backache.

It has cured more cases of leucorrhœa by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors. Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick headache. Mrs. Pinkham's Sanative Wash is of great value for local application.

RECIPROCITY EXEMPLIFIED.

A Seymour Industry Benefited by This
Economic Principle of the Republican
Party.

At the present time the Blish Milling
Co. is getting out a large quantity of
flour for Newfoundland. A curious
thing about this trade is that all flour is
taken in flat hoop barrels and the bar-
rels when emptied of flour are resold to
fish dealers who repack them with fish
and ship them back to the United
States. This is a high type of recipro-
city exemplified. Chas. Sauer, of the
Seymour Cooperage Co. furnishes the
barrels to the mill and at the present
has a large force of men at work making
them. And thus does the wave of
prosperity gain strength in its course.

DIED.

An infant child of George Applegate,
of Crothersville, died Sunday night
August 8, 1897.

Miss Vina Sieffker, died at 9 o'clock
Sunday morning, August 8, 1897, at the
home of her father, Martin Sieffker, on
the township line south, with typho-
malarial trouble, aged fifteen years. Fu-
neral at Sauer's church at 10 o'clock to-
morrow. Miss Vina was a promising
young lady and highly esteemed.

Mrs. Daniel Peck, a respected and
life long resident of Medora, died Sat-
urday August 7, 1897, with typhoid fever
aged about forty-five years.

ACME PICNIC.

The picnic at Acme last Saturday was

COLUMBUS GIRLS JEALOUS

The Columbus Star is authority for
the statement that some of the girls of
Columbus are planning to get even
with some young men of that town
who persist in making frequent visits to
Seymour to call on lady friends. They

claim that they frequently furnish enter-
tainment for these same young men
during the week, but when Sunday
comes they come to Seymour. They
are organizing to put a stop to their
visits here.

REUNION OF THE 22D.

The 20th annual reunion of the 22d
Indiana Vol. will take place at Crothers-
ville, Ind., on the 12th, 13th and 14th
of August next. As there are but few
of us remaining we should all meet to-
gether at least once a year as long as do-
llie. You are earnestly requested to be
present.

All members of the 22d will be ca-
ed for free of charge during the reunion.

Famous Springs At Deer Park.

A million and a half gallons of the purest water on earth is the daily outflow of the famous Boiling Springs in Garrett, Maryland, reached via the B. & O. S. W. R. In order that nothing can contaminate the springs, one hundred acres of land surrounding them are fenced in. In addition, a wire building covers the springs, so that leaves cannot fall into the water. It is from these extraordinary springs that Deer Park Hotel receives its water supply, the water being piped direct to the hotel. The medical fraternity now concede that in the matter of health the question of pure water stands at the head and front. No summer resort combines so many healthful features. The air is wonderfully pure and invigorating; cool nights, with absolutely no mosquitoes; the finest cuisine, with perfect hotel arrangements, makes Deer Park Hotel the ideal resort.

A Remarkable Cure of Chronic Diarrhoea. In 1861, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, Henry Steinberger, Allentown, Pa. Sold by C. W. Milhouse, the druggist.

CASTILLO MURDERED

Spain's Prime Minister Assassinated at San Agueda Baths.

FELL DYING AT HIS WIFE'S FEET

Three Shots Fired by an Anarchist, One of Which Struck the Premier in the Forehead—Assassin Arrested—The Russian and German Emperors Pledge the Peace of Europe.

MADRID, Aug. 9.—Senor Canovas del Castillo, prime minister of Spain, was assassinated yesterday at Santa Agueda, by an anarchist. The murderer fired three shots, one of which struck the premier in the forehead and another in the chest.

The wounded man fell dying at the feet of his wife, who was with him, lingering in agony for two hours and then passing away with the cry of "Long live Spain," which were the last words upon his lips.

Santa Agueda is noted for its baths. The place is between San Sebastian, the summer residence of the Spanish court and Vitoria, the capital of the province of Alava, about 33 miles south of Bilbao. The premier went there last Thursday to take a 3-weeks' course of the baths, after which he expected to return to San Sebastian to meet United States Minister Woodford, when that gentleman should be officially received by the queen regent.

The assassin was immediately arrested. He is a Neapolitan and gives the name of Rinaldi, but it is believed that this is an assumed name and that his real name is Michele Angino Goli.

At a special meeting of the cabinet yesterday, under the presidency of Senor Cos-Gayon, minister of the interior, the latter announced that he had been instructed by the queen regent, with the premiership ad interim.

The murderer declares that he killed Senor Canovas "in accomplishment of a just vengeance" and that the deed is the outcome of a vast anarchist conspiracy. He is believed to have arrived at Santa Agueda the same day as the premier and he was frequently seen lurking in the passages of the bathing establishment in a suspicious manner.

The remains of Senor Canovas were brought here today. Marshal Martínez Campos has gone to San Sebastian to attend the queen regent.

The greatest excitement and indignation prevails among all classes. All the members of the diplomatic corps have expressed their sympathy with the government. Many senators, deputies and generals, while expressing their grief and indignation, have offered to render to the government all the assistance in their power.

SECRETARY SHERMAN.

He Learns of the Assassination of Spain's Premier Through Press Dispatches.

WASHINGTON, Aug. 9.—Secretary of State Sherman received the first news of the assassination of Premier Canovas through a press bulletin. He expressed deep interest in the details. He said:

"This deplorable event will have some effect, of course, on the political affairs of Spain, but to what extent I cannot say. The death of one man is not necessarily going to change the sentiment of the whole country. Spain is a very tenacious country. Her money is gone. Her resources have been exhausted. But she means, evidently, to hold on to Cuba. Premier Canovas was a strong partisan. He was the chief exponent of the element which was determined to keep the island at all hazards. As to the consequences of the conflict in Cuba I do not care to talk. I have no official information of the assassination and must refrain from venturing guesses as to what it may effect in the future."

Senator Morgan (Ala.), a member of the foreign affairs committee of the senate and the champion of Cuba in that body, predicted in an interview last night that the assassination might be the forerunner of a complete change of government, a republic replacing the monarchy. This, he thought, was the present tendency and yesterday's event he regarded as an evidence of the disintegration of the Spanish government.

He added: "This affair is going to create a complete revolution throughout the whole of Spain. That country is now in a very shaky condition. It is true doubtless that yesterday's assassin was an anarchist, but the act is representative of a feeling that exists all over the country."

WOODFORD SHOCKED.

United States Minister Hears of the Terrible Crime.

LONDON, Aug. 9.—The Spanish embassy in London has received two telegrams.

PENNSYLVANIA PEACHES.

Trees are Breaking Down With Fruit. Other Sections a Failure.

CHAMBERSBURG, Pa., Aug. 9.—The Blue Mountain peach belt of southern Pennsylvania and western Maryland is the only part of the country that will have more than 20 or 25 per cent of a crop this year. According to the view of Colonel James R. Gilmore of Chambersburg, who has just returned from a tour of the peach states, the shortage is especially great in Wisconsin, Ohio, Maryland and the eastern shore of Maryland. All through this season the trees are breaking down with fruit.

WIRLINGS.

Two distinct vibrations of an earthquake were felt at Basalt, Colo.

More than 2,000 cars of wheat are standing on the sidetracks at Kansas City, Mo., awaiting shipment.

Wallace Campbell, an actor of New York, known as "Wally DeForest," died suddenly in the depot at Chester, Pa.

A disastrous explosion in a cartridge factory at Rustchuk, Bulgaria, on the Danube, resulted in the death of 40 people and many were injured.

By a decision of the supreme court of Oklahoma, just promulgated, the Indian traders are given an absolute monopoly of the trade on Indian reservations.

John Spurgeon and Robert Regan have been lodged in jail at Guthrie, O. T., charged with robbing the postoffice at San and Fox Indian reservation.

Two tanks of petroleum exploded on the Houston and Texas Central railroad near McKinney, Tex., wrecking the train and seriously burning the trainmen.

The body of Dr. Arthur S. Keeney, aged 55, a retired eye and ear specialist, was found in the woods near Albany, N. Y. He was out hunting and accidentally shot himself in the knee, bleeding to death.

grams, the first briefly stating the fact of the assassination and the second, coming direct from San Sebastian, stating that Senor Canovas had been the object of an infamous attack, but saying nothing about his death, and concluding with the statement that the whole of Spain is tranquil and that there is not the least symptom of any alteration in the state of public affairs.

A reporter carried the news to General Woodford, United States minister to Spain, who is now in London. General Woodford was so overcome that several minutes passed before he could express his horror at the deed and his profound sympathy for Spain in her misfortune. "This is terrible," he said, "most unfortunate. The Spanish government and people will have the sincere sympathy of all friends of constitutional government. It is too soon to express any views as to the effect which the regrettable death of Senor Canovas will have upon current questions."

Queen Wires Her Condolence.

MADRID, Aug. 9.—The queen regent on hearing the sad news dispatched her own physician, Dr. Bustos, by a special train from San Sebastian. Later, on learning that Canovas was dead, she wired her condolence to the widow.

THE TWO EMPERORS.

Nicholas and William Pledge the Peace of Europe.

ST. PETERSBURG, Aug. 9.—At the state banquet given by the Russian emperor and empress to Emperor William and Empress Augusta Victoria Saturday night, Emperor Nicholas, toasting his imperial guests, said:

The presence of your majesties among us causes me very lively satisfaction. It is, at the same time, a precious guarantee of the maintenance of the general peace, which forms the object of our constant efforts and our most fervent wishes.

Emperor William shortly afterward raised his glass to his host and replied, in part, as follows:

I thank your majesties with a warm heart, speaking also in the name of the empress, for the cordial and magnificent reception you have accorded us and for the gracious words with which your majesty has so affectionately welcomed us. I can with full confidence, lay this promise anew in the hands of your majesty, and I know I have the support of my whole party in doing so, that I stand by your majesty's side with my whole strength in this great work of preserving the peace of the nations, and I will give your majesty my strongest support against anyone who may attempt to disturb or break this peace. TO-MORROW'S ELECTION.

The republicans of the Fourth district have a chance to elect a congressman tomorrow. The only hope of the democrats is based on the stay-at-home vote of the republicans. That hope will not be realized. They were bold, enough two months ago to say that their candidate "would be elected by democratic votes," but now they are bidding for anything they can get. They are disappointed because the farmers can get much better prices for what they have to sell than they could a year ago. For political reasons they hoped the low prices that prevailed under the Cleveland administration would go still lower.

They have done everything possible to prevent the return of prosperity, but honesty compels them to admit improved industrial conditions. The laboring men know and appreciate this fact and will vote accordingly. Every sincere republican will be proud of what has been wrought in the interest of the people since the inauguration of President McKinley, and will take an active interest in behalf of Major Lee until the polls close tomorrow evening.

MAJOR LEE is an able and patriotic citizen, a man well known to the people of the Fourth district. He will be our next congressman if the voters do their duty.

Japan and Hawaii.

It is, of course, not strange that the Japanese have become somewhat intoxicated by the ease with which they defeated the Chinese. As a matter of fact, the United States has always been Japan's best friend. The people of this country have had for Japan the most intense feelings of interest and sympathy. If any European Machiavelli has been encouraging Japan to take an attitude of aggression in matters concerning the United States and Hawaii Japan should be warned in time against such advisers. It is only an enemy of Japan that could give such advice. Certain London newspapers have asserted that the Japanese navy could readily overpower that of the United States, and lay waste San Francisco and the whole Pacific slope. But this merely illustrates once more the invincible ignorance of London journalism. Our vessels already in the Pacific and adjacent waters are more than a match for the whole Japanese navy, and would need no assistance from that half of our naval armament that is stationed in the Atlantic. From "The Progress of the World," in American Monthly Review of Reviews for August.

The decision of Judge Martin, of Bedford, that running stock of building and loan associations is taxable is calling forth a vast amount of criticism. If this decision is held good by the supreme court it will do away with much of the building and loan business in Indiana.

The popular impostor who spoke on the street corner Saturday night, claimed to be a "mechanic out of a job." He certainly did not talk in a manner to recommend him to any of the men of Seymour who employ mechanics. The fair-minded supporters of Mr. Griffith were ashamed to stand and listen to the disconnected harangue of this stranger. They know that such support does their candidate no good. All were convinced that he was no ordinary impostor when he proposed taking up a collection to close his performance.

The prospects of electing Major Lee to congress in this district which is normally democratic by about 2000 are brighter today than at any time since the campaign opened. The democrats of the Bryan brand are making desperate efforts to arouse the rank and file of their party. They are fearful of losing the district of which they formerly had no fears. They have collected a corruption fund by calling on sympathizing brethren over the state who hold political jobs. They have even assessed the judges and clerks of the election boards on their side. By such methods they are getting a fund together to use in behalf of Griffith. But in spite of all they can do they fear defeat in this district where they have previously counted on a big majority.

Market Quotations Tell the Tale.

The stock argument of the advocates of free silver coinage at a ratio of 16 to 1, in the last campaign, was that a decrease in the value of silver always caused a corresponding decrease in the price of farm products, and particularly wheat. The following comparisons in the price of wheat and other farm products, and the value of silver in 1896 and 1897, disprove these claims absolutely.

Decline in price of silver

Sheep advanced in price in 1897, per head

Wool advanced in price, per pound, in 1897

Silver declined in price, per ounce, in 1897

These figures show plainly that the price of farm products has advanced during the last year, while the value of silver has continued to decrease, and proves conclusively that the price of silver has absolutely no effect on the price of wheat and other farm products.

REDUCTION OF FARM MORTGAGES IN THE FOURTH DISTRICT.

Another claim of the advocates of the free and unlimited coinage of silver, and the calamity-shriekers in the campaign of 1896, was that on account of the low price of farm products, which they claimed to be due to the depreciation in the value of silver, a majority of farmers were becoming burdened with debt, and that the number and amount of farm mortgages were being increased each year.

The following figures, taken from the records in the offices of the recorders of the counties comprising the Fourth congressional district, show that the people are paying mortgages a great deal more rapidly than they are giving mortgages.

THE COINAGE OF SILVER DOLLARS.

Another argument of the free silver shouters in the campaign of 1896 was that the Republican policy, or gold standard, as they termed it, meant the disappearance of the silver dollar.

From July 1, 1896, to July 1, 1897, there were coined 21,263,791 standard silver dollars, as follows:

MARCH \$9,064,604

APRIL 5,740,638

MAY 688,131

JUNE 13,630,014

TOTAL \$29,082,847

PER CAPITA CIRCULATION.

The per capita circulation in the United States June 30, 1896, was \$21.35.

The per capita circulation in the United States June 30, 1897, was \$22.80, an increase of \$1.45 per capita.

EXCESS OF RECEIPTS OVER EXPENDITURES.

During the 44 months of the Cleveland administration, from July 1, 1893, to March 1, 1897, only seven months showed a surplus of receipts over expenditures.

The aggregate amount was \$21,730,014.

Under the McKinley administration, from March 4 to July 1, 1897, the excess of receipts over expenditures amounted to \$29,082,847.

These figures show that the excess of receipts over expenditures during four months of a Republican administration amounted to \$7,962,833, more than was shown during 44 months of a Democratic administration.

The excess of receipts over expenditures, as shown by the treasury report during each of the first four months of the McKinley administration, was as follows:

MARCH \$9,064,604

APRIL 5,740,638

MAY 688,131

JUNE 13,630,014

RECIPROCITY EXEMPLIFIED.

A Seymour Industry Benefitted by This
Economic Principle of the Republican
Party.

At the present time the Blish Milling
Co. is getting out a large quantity of
flour for Newfoundland. A curious
thing about this trade is that all flour is
taken in flat hoop barrels and the barrels
when emptied of flour are resold to
fish dealers who repack them with fish
and ship them back to the United
States. This is a high type of reciprocity
exemplified. Chas. Sauer, of the
Seymour Cooperage Co. furnishes the
barrels to the mill and at the present
has a large force of men at work making
them. And thus does the wave of
prosperity gain strength in its course.

the statement that some of the girls of
Columbus are planning to get even
with some young men of that town who
persist in making frequent visits to
Seymour to call on lady friends. They
claim that they frequently furnish enter-
tainment for these same young men
during the week, but when Sunday
comes they come to Seymour. They
are organizing to put a stop to their
visits here.

Famous Springs At Deer Park.

A million and a half gallons of the purest water on earth is the daily outflow of the famous Boiling Springs in Garrett county, Maryland, reached via the B. & O. S. W. R'y. In order that nothing can contaminate the springs, one hundred acres of land surrounding it are fenced in. In addition, a wire building covers the springs, so that leaves cannot fall into the water. It is from these extraordinary springs that Deer Park Hotel receives its water supply, the water being piped direct to the hotel. The medical fraternity now contend that in the matter of health the question of pure water stands at the head and front. No summer resort combines so many healthful features. The air is wonderfully pure and invigorating; cool nights, with absolutely no mosquitoes; the finest cuisine, with perfect sanitary arrangements, makes Deer Park Hotel the ideal resort.

For dates of special low rates to this health-giving resort see Agents B. & O. W. R'y.

A Remarkable Cure for Chronic Diarrhoea. In 1861, when I served my country as a private in Company A, 107th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and recommend it to all suffering veterans. If in doubt write me. Fathers Quarrel Over Their Children and One Is Killed.

PINEVILLE, Ky., Aug. 9.—Marsh Low was shot and killed in Leslie county by Lewis Messer. The latter's boy had mistreated a child of the former. Low went to Messer and asked him to chastise the child for its conduct, which Messer refused to do. Both became angry, when Messer rushed into his house and returned with a double-barreled shotgun and told Low his time had come. Low tried to dissuade Messer from shooting, but to no avail. Messer fired both barrels, killing Low instantly.

Was a Survivor of ironclad Nabat.

KOKOMO, Ind., Aug. 9.—Abraham Michener, a pioneer of this county, and ex-Confederate J. B. Michener of this city, who died Friday at Spencer, Ind., aged 63, was one of the few survivors of the ironclad Nabat at the bombardment of Fort Sumter in 1863. He had charge of the engines of the turret. He helped capture the two 10-inch columbiads that the government only a few days ago gave to the Kokomo authorities for memorial uses. The canon that will soon adorn the Kokomo City park killed many Indiana soldiers.

Old Settlers' Meeting.

NEWCASTLE, Ind., Aug. 9.—The old settlers' annual meeting was held at the fair grounds here Saturday, with one of the largest crowds ever in attendance present. The meeting was addressed by Hon. John L. Griffiths of Indianapolis, Frank B. Posey of Evansville and General Grose of this place.

United Brethren Conference.

LOGONER, Ind., Aug. 9.—The United Brethren conference of this district, which embraces northern and eastern Indiana, has been called this year to convene at Pleasant lake. The opening session will be held Sept. 16. Bishop Hott of Cedar Rapids, Ia., will preside.

Touched a Live Wire and Is Dead.

SPRINGFIELD, Ind., Aug. 9.—Harvey Briggs, aged 15, was instantly killed late Saturday by a live wire which he touched after climbing a pole. As he fell an iron step projecting from the pole caught his clothing and he hung in midair until rescued.

Transfer of Prisoners.

INDIANAPOLIS, Ind., Aug. 9.—A transfer of 33 prisoners was made through this city Saturday to the state prison at Michigan City. The prisoners are classified at the reformatory as vicious and low grade.

Will Change Pulpit.

CRAWFORDSVILLE, Ind., Aug. 9.—Arrangements are being made for Rev. S. V. Leech of the First Methodist church to go to Atchison, Kan., and the pastor now there, Rev. Dr. E. H. Grumbel, to come to this city. The change will be made this fall.

Wanting Rain.

MICHIGAN, Ind., Aug. 9.—There has been no rain in this section for two weeks, and the farmers say that the corn crop is sure to be cut short. The ears are just beginning to form, and at this stage a drought is most damaging.

Every part of our body is momentarily wearing out and being built up anew. This work is done by the blood. Keep this vital fluid pure with Dr. Bull's Pills and health will prevail.

SHOT HIS ASSAILANT

James O'Connell Killed by George Moran in a Quarrel.

CHARGE OF HIGHWAY ROBBERY.

Touched a Live Wire and Is Dead—Unable to Fill Orders—Discovers an Old Indian Lead Mine—Old Settlers' Meeting—Prisoners Transferred From the Reformatory to the State Prison,

INDIANAPOLIS, Aug. 9.—Last night George Moran was arrested in this city and charged with murdering James O'Connell at Bridgeport, seven miles west of here, last Saturday night. Moran, who is colored, claims he shot O'Connell in self-defense. During the evening a man named Seymour Blank picked a quarrel with Moran and was knocked down. They afterward met and the trouble was apparently settled. Then O'Connell took the trouble up and slashed the colored man across the face with a knife, when the latter fired two shots, killing O'Connell. Moran came to the city Saturday night and went to the house of a friend, where he was arrested.

OLD INDIAN MINE.

J. C. Applegate, White Diggings a Well, Discovers Lead Ore.

PERKINSVILLE, Ind., Aug. 9.—J. C. Applegate, a farmer near here has made an important discovery and one that clears up a mystery. During the pioneer days of the state Indians had a large camping ground near here and used to sell large quantities of lead ore to the merchants of the state. Where they got the ore was a mystery, as no mines were known to exist in the west. While cleaning out an old hole in the woods on his farm Saturday for the purpose of changing it into a stock well, Mr. Applegate discovered a vein of rich lead ore 30 feet under ground. This undoubtedly explains where the Indians got their ore as the ground was found tunneled under some distance.

FINE CROP OF MULLEIN.

Farmer Sends to Washington For Tobacco Seed and Gets Weed Instead.

NOVLESVILLE, Ind., Aug. 9.—The system of distributing seeds by the government received a blow in this township a few days ago. William Benson sent to Washington last spring for some fine tobacco seed. He planted the seed and the plants grew rapidly and made promise of a splendid crop. When they got a foot high he made a careful examination of his crop and found that instead of tobacco he had a rank crop of mullein weeds. Under the bidding system of buying the seed it is well known that the government gets the worst seed in the country, but it was not thought possible that seed would be sent out for tobacco.

Charged With Highway Robbery.

EVANSVILLE, Ind., Aug. 9.—James B. Sisk and Lydia M. Sisk, claiming to be brother and sister were arrested here Saturday for highway robbery. They are charged with holding up Henry Heidt, a farmer near Ingleside and demanding \$30 of him, threatening to shoot him if he did not give up the money. He produced the money and filed an affidavit against them. The Sisks came here from Vincennes a short time ago.

Labor Day Bike Racing.

ELWOOD, Ind., Aug. 9.—The Elwood Cycle club has arranged for a grand meet here on Labor day, to be under the auspices of ex-Champion of the State John Barber. The day will be devoted to attempting to record breaking by the crack professionals and amateur racers. Some good purses will be hung up.

Old Settlers' Meeting.
